The creation of the Riverside Medical Clinic Charitable Foundation (RMCCF) began as an vision of Riverside Medical Clinic (RMC) doctors in 1984, with the mission of health education, advocacy, and service. Today, as a non-profit organization, RMCCF's mission remains critical to meeting the changing needs of the Inland communities.

While the past few years brought change around the world and impacted all of us, what has not changed is our commitment to the community we serve. Our programs impacted thousands of students and parents through our bullying prevention education, scholarship awards, our health and wellness awareness campaigns as well as our impact to our seniors.

Your sponsorship help bring valuable services to our community, but also year-long exposure for your organization.

Together, we can make an even bigger difference in our community in 2023 and beyond!

HERO program delivering kindness and bullying prevention programs to thousands of students.

FREE Hands-Only CPR Training for Riverside residents.

16 AED donations to community businesses.

Health & Wellness Fairs sharing community resources.

Community Care, delivering over 3600 Kindness Care Kits to vulnerable seniors.

Educating hundreds of students and parents on kindness, empathy and bullying prevention.

Delivering over 13,200 Kindness Kits and Activities to students in schools and libraries.

Annual bullying prevention conference dedicated to educating our community administrators.

Traveling Triplets visits to provide doll therapy for people with dementia.

\$43,000 in scholarships awarded to high school seniors entering the medical field.

Riverside Medical Clinic

CHARITABLE

foundation

MISSION

Riverside Medical Clinic Charitable Foundation is dedicated to improving health and the quality of life in Inland Southern California through advocacy, individual and professional education, and service.

OUR HISTORY

The Riverside Medical Clinic Foundation was born of the vision of 19 Riverside Medical Clinic physicians in 1984. For over thirty-five years, the Foundation has pursued a mission of providing health education to Inland families.

In 2013, the Riverside Medical Clinic Charitable Foundation (RMCCF), a 501(c)(3) public charity, was incorporated to carry on the good works of RMCF and its founding doctors. In its mission to improve health and the quality of life for residents in Inland Southern California, RMCCF continues to present health-based events with its community partners and worked to provide innovative relevant programs.

In 2014, we created the Anti-Bullying Institute to offer hands-on bullying prevention programs designed to empower children, parents, schools, and youth organization personnel to effectively deal with bullying.

In 2016, we began awarding scholarships in three different categories to invest in our community. Scholarships were awarded to individuals who had chosen health care as their field of study, healthcare workers needing assistance to further their education and to schools who need assistance starting a kindness or bullying prevention program at their schools.

In 2019, we initiated our Traveling Triplets program. This memory care doll therapy offers meaning and purpose for someone who is living with dementia. Our staff visits memory care facilities, where we work to introduce the babies to individuals who will benefit the most from this interaction.

In 2021, we launched PulsePoint, a partnership with the City of Riverside's Fire Department. Along with funding and marketing, supporting this life saving initiative will help to continue our mission and dedicate our programs to Riverside residents.

In 2023, we developed reIMAGINE, a bullying prevention curriculum based on CBU's Sport and Performance Psychology program. reIMAGINE is currently being piloted in a grade school and middle school through the 23/24 school-year.

Riverside Project Heart

RMCCF and the Riverside Fire Department are partnering to bring a new, lifesaving technology to Riverside. PulsePoint allows Emergency Communications Center staff to alert registered responders of person in need of CPR in their vicinity and inform callers of nearby lifesaving devices, such as an AED. Public Safety Answering Point (PSAP) telecommunicators are a critical link in the cardiac arrest chain of survival. RMCCF has committed to be the sole funding source of PulsePoint for the initial three-year agreement to help save the lives of residents within the City of Riverside. To increase the number of CPR-certified, PulsePoint responders, RMCCF's American Heart Association-certified Instructors are hosting the HeartSaver CPR/AED Courses for the community. Groups may participate in the extensive 4-hour HeartSaver Course, which includes Adult, Child, and Infant interventions and AHA certification or the brief HeartSaver Introductory Course, which covers Adult intervention only. Hands-only CPR classes will be held at Educational Events throughout the year. Various CPR offerings will be given free of charge in the vulnerable neighborhoods within the City of Riverside. RMCCF is also dedicated to raising funds to install 100 AED's per year in our community, so that this valuable resource is available in all communities throughout Riverside.

Educational Events & Campaigns

In cooperation with our valued sponsors and community partners, our Foundation presents health and wellness educational events throughout the year. Topics cover various health conditions such as diabetes, sleep hygiene, dementia, bullying prevention, autism, mental health, obesity, childhood health and wellness, and more. In honor of our Foundation's 19 founding physicians, these educational events are free and open to the community. Each event includes CPR education, community fairs and kindness activities for all ages.

Volunteers/Internship Opportunities

The Foundation offers internships to high school and college students, as well as various volunteer opportunities for individuals wishing to offer their time and talents to serve our community. RMCCF believes that volunteers are true catalysts for change. We are grateful for the efforts of many volunteers, including our Board of Trustees, fundraising committee members, and Foundation interns in furthering the mission of RMCCF.

Community Involvement

RMCCF recognizes that improving the health and quality of life for Inland Southern California residents is a mission that is best achieved through strong and long-lasting community partnerships. We believe in the power of leveraging resources through community collaboration to allow our programs to reach more individuals and make a greater overall impact.

Fundraising Events

RMCCF is here for our community and eager to offer free critical programs and services for school-aged youth, families, individuals facing chronic illness, caregivers, and seniors from Inland Southern California. To continue to meet the current and growing needs of our community, we are deeply grateful to partner with our generous funders, grantees, volunteers, and community partners, including Riverside Medical Clinic, Riverside County Office of Education, City of Riverside, and a network of business and non-profit community partners. 100% of all funds raised at our annual Fundraising Gala and Spring Fundraiser directly benefit the thousands of Inland Southern California participants of our bullying prevention, CPR classes, Traveling Triplets, and scholarship programs.

Scholarships

Together with our supporters and donors, our Foundation invests in our community with three annual scholarship programs – The RMCCF College Scholarship, Founders Scholarship, and Community Impact Scholarship.

The RMCCF College Scholarship provides recognition and financial support to graduating juniors and seniors currently attending Riverside County high schools, who intend on pursuing a career in any health care field within the Inland Southern California area. The Foundation awards up to ten (10) \$500 scholarships annually.

The Founders Scholarship honors the 19 founding doctors of RMCCF and provides recognition and financial support to students currently enrolled in a health care program or current health care professionals in the Inland Southern California area. Up to five (5) scholarships will be awarded on a quarterly basis, at a maximum of \$250 per recipient.

The HERO School Scholarship assists schools chosen as part of our program. These funds are awarded to assist enhance their bullying prevention, kindness or inclusivity program at their school. Up to ten (10) scholarships of \$250 per grantee will be awarded each school year.

Traveling Triplets

RMCCF's Traveling Triplets, a memory care therapeutic doll program for dementia patients, was born in 2019. Doll therapy brings the familiarity of being a caregiver for a baby, which can be a comforting and purposeful experience. Instead of constantly being the recipient of assistance and care, a baby offers the opportunity for meaningful, nurturing interaction. Our staff brings the triplet baby dolls for a one-hour visit, where we will work with the staff of the senior care facility to introduce the babies to individuals that they think will benefit the most. Visits are free. Our current coverage area includes the City of Riverside and surrounding areas based on availability and resources.

OUR PROGRAMS

Bullying Prevention Programs

In 2012, our Foundation held a lecture on bullying that garnered substantial positive feedback. Identifying the need for bullying prevention and social and emotional learning for the youth within our community, we were inspired to launch the Anti-Bullying Institute (ABI). In 2014, the ABI was established to offer hands-on programs designed to empower children, parents, schools, and youth organization personnel to effectively deal with the issue of bullying. A program of RMCCF, ABI offers services and resources to assist in ending the cycle of bullying. ABI has impacted over 23,540 students and parents through student and parent-centered bullying prevention education. We also currently serve over 38,000 HERO alumni through our ongoing programs.

HERO Program

Our HERO Program is a bullying prevention program that adopts elementary and middle schools each year with the goal of enhancing or complementing existing activities on their campuses. This program launches with an assembly at the start of the school year; provides student, staff, and parent education throughout the school year; and recognizes exceptional students who go above and beyond to be a HERO. We provide posters, banners, and wristbands, along with educational materials throughout the year, to assist the administration and staff in ending bullying at their school.

Kindness Events

Facilitated throughout Riverside County, kindness events are available for local youth in schools, community centers, and community organizations. These free events and activities are meant to inspire, educate, and promote a positive, safe, and happy environment. Youth are exposed to the topics of kindness, empathy, and inclusion through various activities that plant a seed of hope for a kinder world in which they feel empowered to create. Our staff coordinates each event with the school in advance, so that the activities are grade-specific and target the individual student population. Activities may include: A Kindness Day, Cyberbullying Safety Class, or A Pledge Wall.

Kindness Kits and Kindness Activity Kits

Our custom "Choose Kindness" bags educate minds, bring smiles to faces, and fill hearts with love. Our Kindness Kits are filled with various age-specific activities, as well as inspirational items that have been donated or purchased to be given to students or seniors. Hundreds of bags are delivered each year to spread kindness to those who are acknowledged for their efforts in making our community a better place or to people who are just in need of a kind gesture.

1000 Kindness Activity Kits are distributed monthly at all of the Riverside Public Libraries during the last week of the month. These free activities promote kindness, positivity and inclusion.

Parent and Student Classes

Parent Classes are offered in-person or virtually to provide valuable information on how to effectively identify and address bullying. Topics include an in-depth overview of traditional bullying and cyberbullying; cues that your child is being bullied or is a bully; methods to maintain open lines of communication with your child and discuss bullying.

Our student classes, Creating the Ripple Effect, is an interactive bullying prevention workshop intended for Elementary, Middle and High School students. They will learn what bullying and cyberbullying is, as well as the long-lasting effects it can have on both the Target and Aggressor. The information provided emphasizes the importance of advocating for yourself, others, and practicing empathy in hopes of creating a ripple effect of kindness in your school and community.

Classes are provided free of charge in English or Spanish.

Educational Conference

ABI's annual bullying prevention conference is designed to raise awareness, promote workable solutions, and create exceptional opportunities for professional development. Leading experts present the latest research and evidence-based strategies to participants who are committed to addressing and ending the bullying epidemic in our community. Admission fees remain low to our local parents, educators, administrators, and social service professionals through the generosity of our sponsors and supporters. RMCCF also provides scholarships to individuals who may not have the financial means to attend this valuable event.

reIMAGINE

In partnership with the California Baptist University Sport and Performance Psychology Department, we have developed an innovative bullying prevention curriculum. ABI reIMAGINE will guide teachers and students through a 10-module program that encourages empathy, compassion, and cooperation among students. The goal of this program is to reinforce the principles of Sport and Performance Psychology as the basis of changing behaviors and increasing a positive student experience. We are piloting this program for a second year in AUSD and MVUSD schools.
